

iPads for Learning: Summer 2026-2027 Indicative Pricing

For full detailed specifications of model, please visit [Apple.com](https://www.apple.com).

Conyers recommends the 11" Apple iPad (11th generation)

Monthly Pricing Options	
Pricing Option	Pricing (Monthly Payment)
	iPad (128GB)
36 Months (available to students in Year 7 and Year 8 from September 2026)	£17.74
21 Months (available to students in Year 10 and Year 12 from September 2026)	£24.81
Pay Upfront Options (1 Single Payment)	
Pricing Option	Upfront Pricing (1 single upfront payment)
	iPad (128GB)
36 Months (available to students in Year 7 and Year 8 from September 2026)	£638.64
21 Months (available to students in Year 10 and Year 12 from September 2026)	£521.01

Why does the pricing appear to be more expensive than purchasing directly from Apple?

As of April 2025, a standard iPad from Apple costs £349.00. By acquiring from Conyers, you would benefit from a comprehensive package. Included in the pricing above, you are receiving the following:

A new iPad	A protective case.	iPad administration & support
Standard 1yr Apple warranty	Accidental damage & theft cover (£25 excess per claim)	Limited Loss Cover*

Conyers will also provide the offer to pay a one-off £15 donation to purchase all Apps for their entire lifetime at school. This would allow us to purchase £30 worth of Apps on your behalf, using Apple's education discount.

INSURANCE EXCESS

The insurance policy is with the school rather than individuals.

Conyers School will manage the claims process on behalf of parents.

There is a £25 excess payable per claim.

If the iPad case is removed this will void any insurance claim.

Any deliberate/destructive damage is not covered by the insurance policy.

Key Questions...

When will I receive the iPad? We aim to deliver the iPads in the first week of the new school year. This is normally early September.

When will contributions begin to be collected? The iPads for Learning programme is a fully compliant leasing agreement; which is funded by parent contributions ('monthly payments.'). Once contributions have been paid in full, Conyers will terminate the lease and transfer ownership to the parent. Contributions will not begin until September and only once you have received your iPad. You will receive notification of this prior to collections beginning.

Is it cheaper to buy outright or monthly? Whilst outright purchases are slightly lower, monthly payments allow you to spread the cost of the iPad over a longer term. Paying monthly does incur some additional smaller charges in terms of direct debit, administration and insurance fees.

Will the iPad be restricted? We use a secure management system to ensure iPads are used safely and responsibly in school. We do not restrict parent purchased iPads outside of school.

All devices connected to the school systems are subject to school-determined safeguarding and child protection systems (which includes filtering and app restrictions); regardless of the route of ownership (i.e. self-purchasing, using own, procuring through school etc.) All students will be required to sign and adhere to the school's iPad acceptable use policy prior to beginning using iPads within school. Tracking systems may be activated, should the iPad be reported lost or stolen.

What happens if my child leaves before I have finished my contributions? If your child leaves before completion of contributions, you have the option to either return the iPad to school or settle the remaining payments. We cannot continue collecting contributions for those not on roll at Conyers. iPads are provided under an operating lease to support learning for students at Conyers. Like any leased equipment, it remains the property of the leasing company until the lease is terminated and full payment is received.

Are there any specific protocols which my child should follow when using an iPad?

- All students are expected to review, sign and adhere to the school's iPad acceptable use policy.
- All iPads should be kept in the case provided at all times. This is a requirement of the insurance policy.
- Students should never leave their iPad unattended. During social times, students should take bags to their next lesson for secure storage.
- iPads should be fully charged and brought to school every day. Only the Apple provided authentic charger and cable should be used.
- Any issues, damage or problems should be reported swiftly to Mrs Cotts.
- All iPads will be connected to the school's mobile device management system. This is to aid device configuration and ensure safeguarding compliance.
- A school Apple ID will be provided for all students.

Supplementary Insurance Cover Notes

Students can opt for any iPad model available, procured over a 36 months (3 year) period; paying monthly or outright with a single direct debit payment. Insurance is valid for the entire lease term opted (21/36 months) **whilst students are on roll at Conyers**. A standard 1 year warranty from Apple is provided. NB: Insurance ends upon the final anniversary date of your iPad (e.g. at the end of the 21st or 36th month). Insurance allows for three valid claims, throughout the term of the policy.

* In the iPad programme, all parents will be covered for Accidental Damage and Theft (an additional claim contribution is payable beyond two repair claims). **An excess of £25 per damage / theft claim applies and should be paid to Conyers prior to a claim being processed.**

The insurance provider does not cover iPads for loss. We understand that this is a concern for parents. To alleviate this concern, we have added school provided support in the event of iPad loss. **To achieve this we have added a small charge per month to the pricing and a loss excess of £50. This is included in the iPad administration charges in the pricing stated.**

Loss Insurance Terms:

- All iPads must have 'Find My iPad' location systems on and students must leave it switched on. Along with "report last location." In the event of loss, should parents and students be completely confident that the iPad cannot be located and have exhausted all attempts to locate the device, parents can make a claim directly to the school.

The school will then aim to provide a like-for-like device (similar specification and age).

This is a limited fund and we would consider each claim on a case-by-case basis and we will work with specific students who are perhaps more vulnerable to loss; to limit the eventuality of the above occurring.

The school provided loss cover is separate to insurance provided and does not count towards an insurance claim. **School provided iPads (Pupil Premium / Loan / Multi-child) iPads remain the property of Conyers School and must be returned upon request.**
